

RevoltTM Apparel

Revolt Apparel is a young and progressive Fashion House that is focused on creating and styling quality garments. We design Fashion trends that can be taken from day to evening wear. We also offer styling services to help clients achieve their desired look.

We supply apparel to modern and trendy individuals, who have keen eyes on fashion trends. As a Fashion House, we are young in the industry but our CEO Lindiwe Buthelezi, who is also the creative designer and head of styling has had her interest in the fashion industry as a fashion buyer and fashion stylist from her varsity days. Our products are custom made in South Africa.

Personal styling services are also available to assist the client with their styling needs. We also do wardrobe analysis for our clients.
